1972

The school grounds were empty.

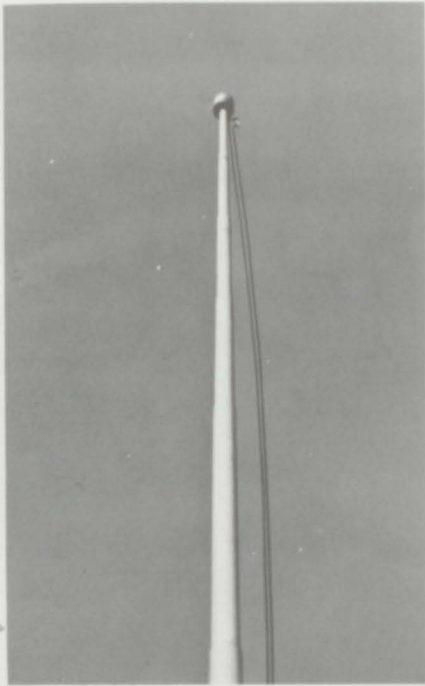

A mystical, magical magnet . . .

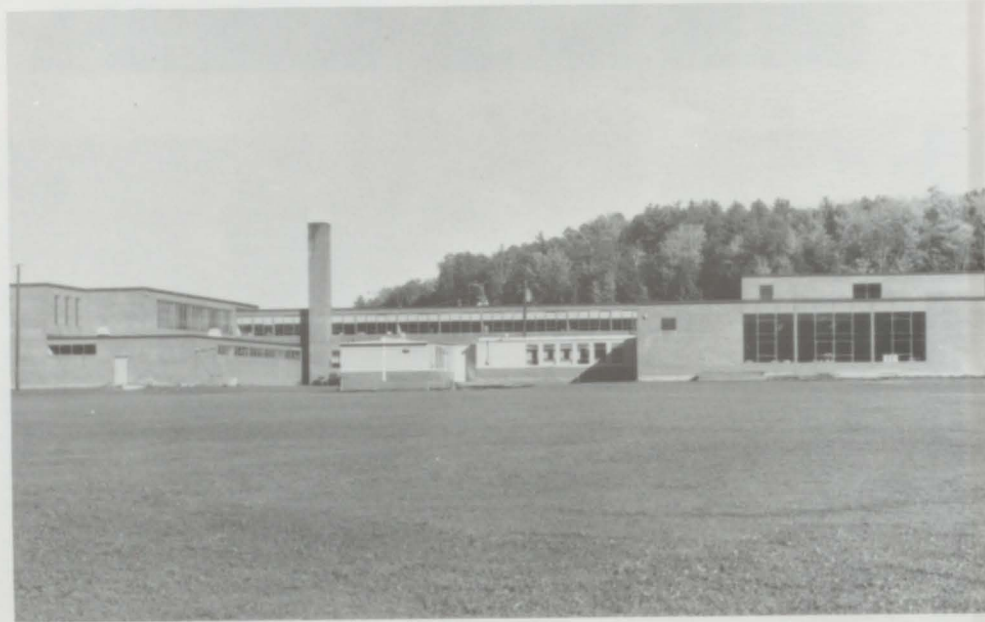

Drawing us
and whispering
"linger here . . ."

All of the mirrors of light drop
with the yellows of the dying
day and a fading summer . . .

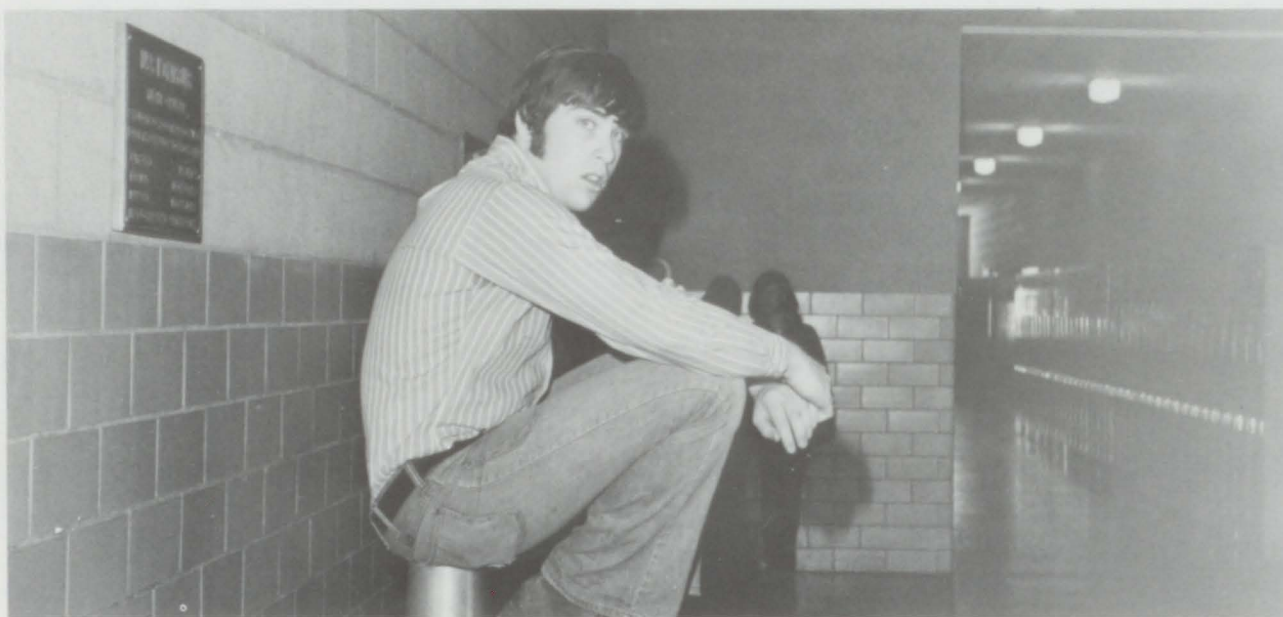

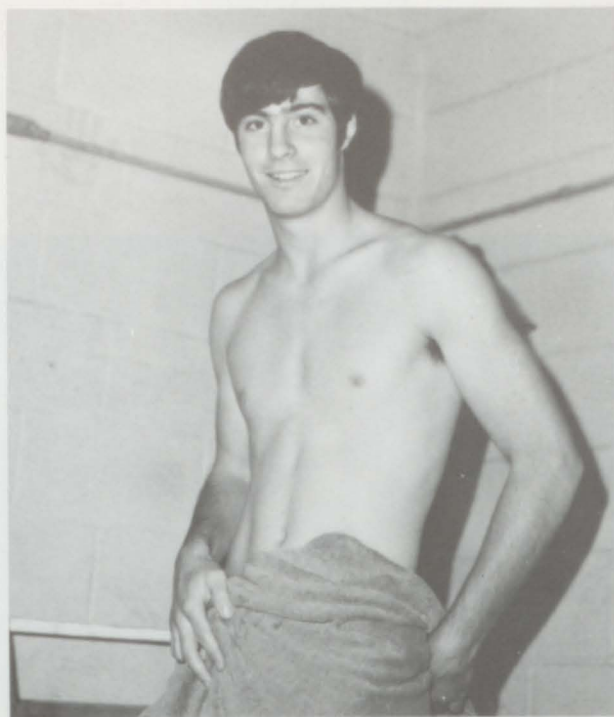

But with the morning . . .

YOU CAME . . .

you, with your eager eyes and polished faces . . .

you, with your successes and failures . . .

you, being yourself of faking it . . .

soon to become lost

in day-to-day routines . .

Curiosity itches. Inspirations flow.

The school awaits your ideas and your accomplishments.

MONTPELIER HIGH SCHOOL MONTPELIER, VERMONT

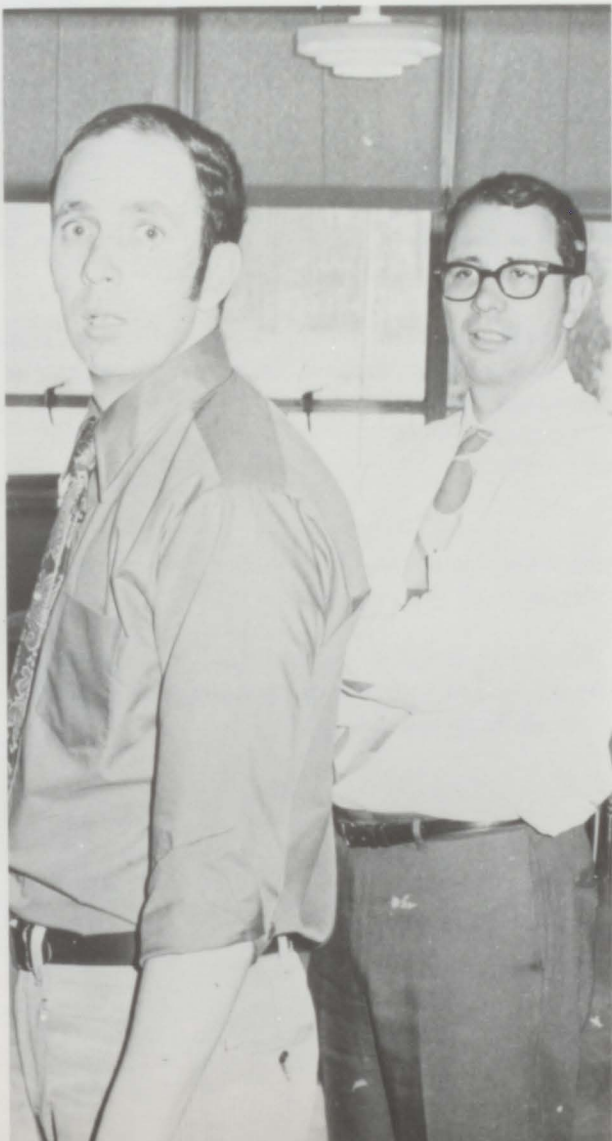

IN THESE DAYS

of conflict and strife, it is becoming necessary to search more deeply for truth and understanding. The students of the 1970's are growing up in a world of seeming distrust and hate. Our need for a knowledge of trust and real friendship *can* be satisfied, but we must be willing to try.

We have known a man who has made us aware of ourselves, of others, and of these needs. He was always open to our problems, our opinions, and therefore to our trust. Through him we have grown, thought and lived. This year, the meaning of dedication is twofold; he dedicated himself to us and, in appreciation, we dedicate our *Record* to him.

The years have been many, but time has gone quickly, and your twelve years to a graduation are now accomplished. And as your motto implies, you have made the school, as every class before yours has also helped to shape it and make it what it is and has been.

In a small way, the form the school has taken for you is but a matrix to life, itself. Life and the world that embodies it will, in a large part, be what you make it. It, itself, is a liv-

George E. Sulima, *Associate Principal*

As graduates of Montpelier High School you can be proud of your school system. You have received the best education possible, better than the opportunities afforded preceding generations. As the best informed, best equipped future citizens, you will be challenged to see that tomorrow's school children will have the opportunities to develop their intellect equal to or better than those afforded you. It is the greatest challenge the Nation faces, and its solution will give you the greatest satisfaction.

Congratulations to all of you. May the years ahead bring opportunities for service and true happiness, and may the good Lord bless each and every one of you.

Recall your days with the Green and White, go forward from here, and do well. God bless you and Good Luck.

THE "GROOVE" ON THE GREEN

was the nightly attraction after days filled with politics, sports, meetings, and the Friday night Inaugural Ball. Extensive and energetic campaigns and speeches, the elections, and the winners attempts to execute their campaign promises formed the 1971 Boys' State at which 9 boys represented MHS. Amid lizard initiations and phone calls to VC, Boys' State was deemed highly successful. Harmon Town's takeover, by permission of Norwich's President, was perhaps the greatest controversy of the week, which was climaxed with the naming of Peter Dale and Bill Burgess as alternates to Boys' Nation.

STROLLING

through MacArthur's Park, the Juniors made their last wishes by the great wishing well.

Smiling faces revealed the special feelings the class of 1972 held for the occasion. The night of the Junior Prom is anticipated by all from the day one enters as a freshman until the very moment in which the queen is crowned. The Prom was two things to the Junior class: a beautiful evening, and a time of unification. For the first time, the class of 1972 worked together as one.

Even though the Jolly Juniors are on their way to becoming Seniors, the memories of that romantic evening will remain with them always.

AN EXPLANATION . . .

As another year begins each of us in our own way starts anew — another year older and maybe another year wiser. The school year begins in the fall and with it come the new Freshmen.

Things develop as winter approaches as do the Sophomores with a year of preliminaries behind them.

Winter turns to spring, and the earth thaws to find the Juniors active in the school. As the warm spring sun is able to awaken the life which has been sleeping under a blanket of snow, the Juniors have the potential of making their school alive.

To complete the school year, summer arrives — the warm, vibrant sun, days full of expectation. At the culmination of this excitement are the Seniors. No longer will they undergo this cycle of change at Montpelier High. The fruits of all their labors have matured and the harvest of life awaits.

WELCOME

was the key word of the Freshman Reception, designed to say a big "Hello" to the Freshman class from their venerable elders, the Seniors.

The reception took place in the MHS gym, where the Freshmen were sincerely greeted by Seniors bearing gifts of whipped cream, molasses, and Langdon Pond gook.

The results? A multitude of people who had to spend at least thirty minutes in the shower, a filthy gym, and many hurt feelings.

INNOCENT

awestruck, and eager, the Freshmen are easily identified as they enter MHS. Bewildered at first, they soon relax and fall into the school routine, but still maintain an air of naïveté. They begin by electing officers and representatives. Some join various groups and some participate in school sports. By the time the year is well underway, the Freshmen have begun to make their presence known and felt in the school.

BEFORE

the season started, the newspapers and towns people thought that Montpelier would be a good club, but not a contender for any championship. Head coach Burt Morrison, and his assistants Paul Simpson and Larry Saltarel took their prospective candidates and started to mold them into a team. They worked hard, even during the hot August days, and Montpelier waited for this team to prove itself.

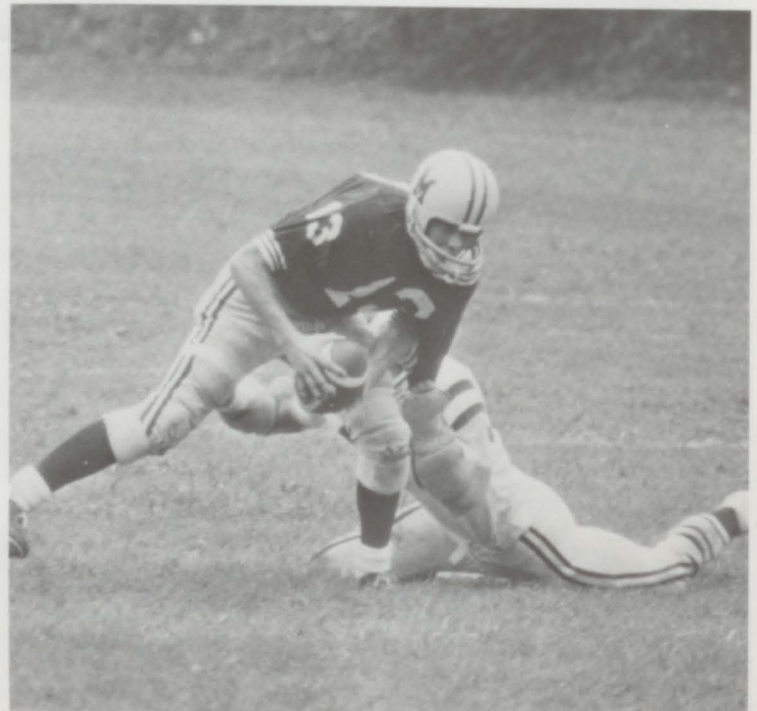

As the season progressed and the wins piled up, the people began to realize what the coaches and the team knew all along — there was a winning team in Montpelier. With the shouts of "Green is Mean" and "Green Machine" from the fans, a pride grew within the team. This, along with their desire to win took them to a six wins, one loss and one tie record and the right to compete in the State Football Championship.

It was a team in every sense of the word. There were no standouts. It was a group of guys acting as one with a common goal — not individual recognition, but a chance at the State Championship.

again, under the leadership of Coach Francis Brooks, the J. V.'s had a successful 3-3 season. Although they played just .500 ball, they capped their season with a win over Spaulding, which made it all worthwhile. With the desire and dedication these boys showed on the field, we can expect more championship teams in the near future.

football program must have felt the winning spirit instilled by the Varsity, as the Freshmen had their best season since the team's founding. With the aid of Coach Fred Kimble and his assistant Joe Smolen, they attained an enviable 5-1 record. Montpelier now must be recognized as a football power at all levels.

GIVE US AN S . . . !

MHS CAME

into the Championships in peak condition and it showed in their attitude and enthusiasm. The Solons — the best of the North — put it all on the line when they met Bellows Falls High — the best of the South, in an evenly matched contest at Middlebury College Field for the State Championship.

It was a great battle all the way, one team and the other overcoming bad breaks to get back into the ball game. Both teams came to play and the final result could have gone either way, anytime.

Bellows Falls was a sound ball club and tough, but the Solons moved the ball consistently. They contained B.F.H.S. effectively on defense, displaying the efforts of solid team play which Marked their entire season.

At halftime MHS held the lead 13-8. Late in the third quarter on a fourth and 14 punting situation, a penalty action by MHS gave the Falls the ball with a first down and 10. This led to a BHS touchdown. This proved to be the winning one. With both teams applying great fourth quarter pressure, MHS stiffened and just as time ran out were about to tie it up with a field goal. Begrudgingly the gallant Solons fell to BHS 14-13.

Fans will long remember the hard fought title game as will the players. When you are a point after touchdown conversion away from a tie, you aren't too far away from a winner.

EXCLUDING PARENTHOOD,

the most difficult occupation in the world is that of the teacher. And, as demands for certain professions increase and decrease, there is always room for a good teacher. The FTA association's awareness of this fact helps meet the future demand for proficient teachers by preparing students interested in pursuing a teaching career. Members of the FTA get an early start in their career by assisting teachers grade papers and make up tests.

FIFTY-FIVE BIG

points against BFA's zero climaxed an exciting Homecoming weekend. That morning downtown Montpelier was filled with strange looking vehicles as the festivities began with the parade. Mayor Strong, the band, eleven floats, the queen and her court and the cheerleaders joined to make a parade successful in exciting everyone for the game, which was won with ease. The Homecoming Dance on Saturday night was the celebration of a weekend not to be forgotten. The second annual MHS Homecoming became a memory.

GUIDE

RIGHT!!!

was the order shouted frequently throughout the ranks of the MHS Marching Band. The participants braved cold, windy Saturday afternoons to perform well-rehearsed and difficult half-time shows complete with counter-marches, left-faces and "M" formations. Members dodged obstacle after obstacle, from being hit with a too close twirler's baton to tripping into the deep hole under the goal post near the gym. All in all, though, the band had a successful autumn; the clear rain covers weren't needed very often, and the candy bars were finally sold.

PRECISION AND

accuracy are necessary to an exciting performance. MHS twirlers have always been a popular attraction at half time during basketball and football games and in concerts. With happy smiles and nervous stomachs, the girls march on, and in a few minutes execute difficult routines which have taken hours of practice to perfect. The feats of skill and dexterity that the twirlers exhibit never fail to impress their many spectators.

EARLY IN

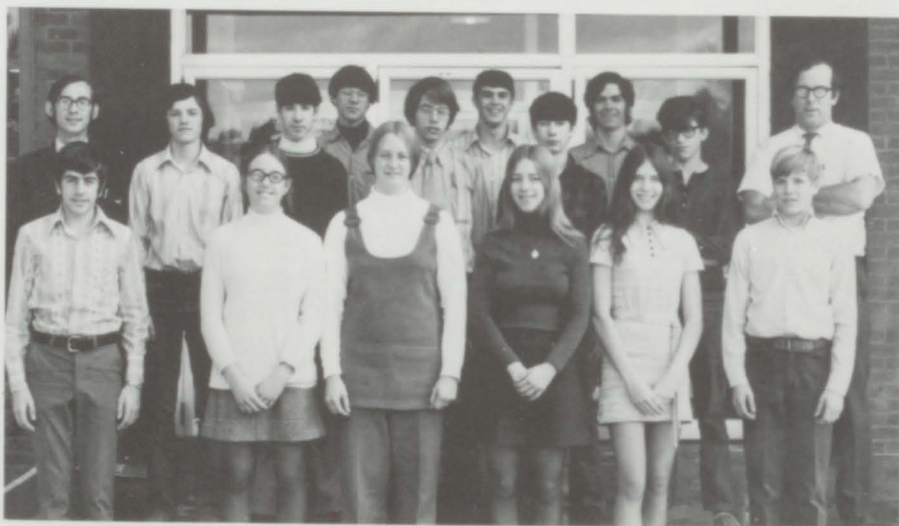

September, some 20 boys and girls went out to brave the fall weather and participate in cross-country running. This is an individual sport where the desire of a person is tested as he tries to outrun as many people as possible in a long distance race. Montpelier was fortunate in that we had enough runners with the type of desire that enabled us to finish with a 10-3 record.

Three Montpelier High School students swim for the Lake Champlain Swim Club — Lea Sikora, John Dufresne and Jon Sairs. John Dufresne is a state champion in the 15-17 age boys' backstroke and freestyle while Lea Sikora is undefeated in butterfly in the Washington County League. Jon Sairs is also a champion and holds many area pool records. Athletics, whether in a pool, on a court or on a field is an exciting and worthwhile experience on which to build a healthy life.

IN SPORTS,

Montpelier's teams are always strong contenders; bowling is no exception. Not much attention is given to the MHS Bowling Team by the rest of the school, but the fact is, our Bowling Team is one of the best in the state.

Coach Raymond McClure is responsible for the team's excellence, and their success is greatly due to his stressing of individual achievement and improvement.

44 STUDENT COUNCIL

FIGHTING

its way out of debt seems to be one of the things the Student Council has to do most often. It would like to do much more but in this world what can one do without money? It is difficult to think of anything.

The Student Council is the student law-making organization at MHS. Its power is amazing and if put to good use it can be quite effective in the running of the school. But it is necessary that all get involved in its organization and do their part to make the kind of organization that they would like to see. It cannot work without the help of everyone in the student body. And so it goes until WE change it.

THE BASKETBALL

season of '71-'72 might well be called the year of the unexpected. Graduating four starters from a team that made it to the semi-finals of the state championship before bowing in double overtime to Rice Memorial, it was generally considered by all that this year might be just an average year.

To the surprise of most, however, a team emerged under the leadership of Co-Captains Peter Dale and Chris Karr that exceeded the record of the previous year. Compiling a regular season record of 16 wins and 4 losses and finishing second in the eleven team Northern League the Solons continued their winning ways right into the State Tourney.

As a result of their record, they were ceded into the quarter-finals having the second best record of all L teams in the State.

The first tourney game found the Solons squaring off against Rice Memorial at the Barre Auditorium. When the smoke had cleared, Montpelier had a stunning 68-50 win over the always tough "Little Indians." Moving on to the semi-finals at Patrick Gym at UVM, the next encounter was with the top ceded team from the South, Springfield High School, again in rather spectacular fashion, the home-towners came away with a great 66-33 win.

As this goes to press, the State Championship has yet to be played; however, it will be Montpelier with an overall 18-4 record facing the top team in the state, Burlington High School with an excellent 21-1 record.

Brent Miller

The final stats on the season have not been completed, however, a few points should be mentioned. Chris Karr led his team in rebounding and was also a contender for foul and field goal shooting percentage as was Peter Dale. Peter and Brent Miller were team leaders in defense while Tim Dale and Rex Martin were contenders in many areas with Rex leading in assists. Randy Jenkins, Paul Jarry, and Tony Caparco, brought up when Tim Dale was lost for the season, contributed immensely in the final push into the tourney.

It was a good season, one that saw excellent team defense and fine team offense. It was a team in the finest tradition of Montpelier basketball. It was a team that set an outstanding example of what could be done when the least was expected.

PART OF

a system of teams that will prepare a boy for Varsity Basketball is the J.V. team. It is important in the respect that it is the last step before a boy plays with the varsity and he must be conditioned to the philosophies and techniques of the head coach.

Coach Fred Jacek achieved this goal as he molded the kids into a ball club that was disciplined on offense and tough on defense. With this type of well-roundedness the team went 17-3 and should provide Coach Drew with another winning team.

"ONLY FIFTY CENTS

for students" is the frequent chant of the members of the *Ticket Squad*. They served the football and basketball teams this year by selling tickets and collecting money at the entrances to the games. Without this group, each game would have needed volunteers to do this, and therefore a half-hearted job would have resulted. This rarely recognized squad is one of the most important and necessary groups at MHS.

A PREREQUISITE

for those who are soon to make their way into the business world is the *Secretarial Club*. Its members gain valuable experience by practicing their acquired skills in simulated office situations. Secretaries can be the guiding forces behind their bosses, and the members of this club intend to prove this in the future. Knowledge of typing, shorthand, filing skills, and bookkeeping are of great importance in an efficient office.

THE SIZE

of the Band was only discouraging at first. This discouragement was soon eliminated as the members learned once again to become a part of their music.

During the winter, the Band's main function was that of entertainment at basketball games' half-times. Generally, this was done very successfully, even though some members took all endings when others took only second endings, and some who found it impossible to be dressed and ready on time learned that half past eight really *is* too late. 1971-1972 was Mr. Mix's last year as Band director. He will always remain a great part of the MHS Band, and we thank him immeasurably for his devotion.

FLASHES OF LIGHT,

spinning and turning, where are they coming from? Our eyes follow the silver birds — then suddenly all the lights go on and we are once again in the real world. The MHS Twirlers are something more than just entertainment — they are unique, leading us onto more excitement.

AFTER MANY EXCURSIONS

into the woods searching for a Christmas tree, a beautiful night was created and enjoyed. Dazzling couples became aware of The Awe of Christmas, if only for one evening. They made their entrances over an iced pond and were immediately transformed into the world of the Christmas season. The Christmas Ball provides the stepping stone into the snowy white world of winter, a very special season of the year.

IN THE STATE

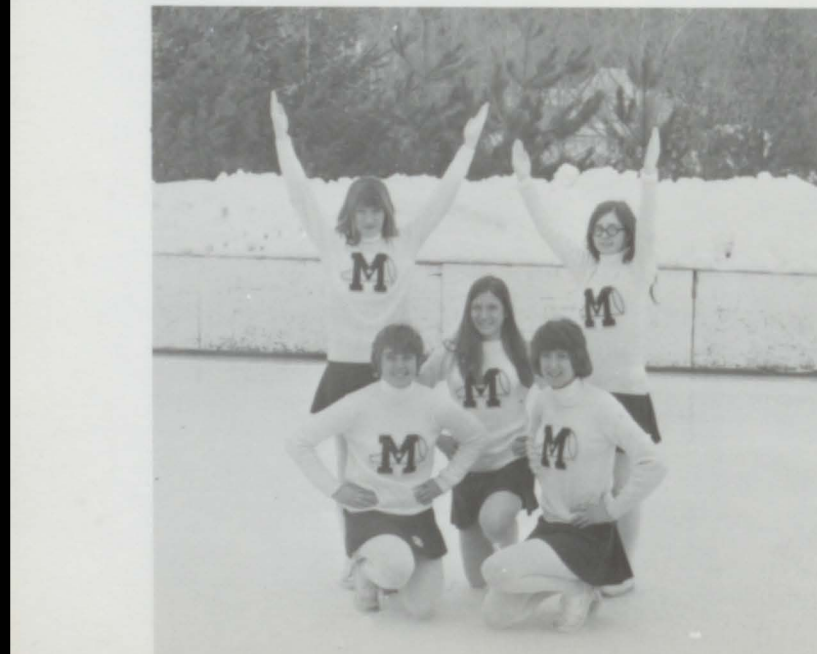

of Vermont, where it is more likely to be winter longer than any other season of the year, hockey is a natural sport. Playing at Taylor Arena in Northfield, the newly initiated MHS Hockey Team played their first exciting season. This new sport gained attention as bundled up fans came to Northfield to see Montpelier High in its first league tournament play. A tremendous number of players were suited up and got a chance to skate in many league games.

Long, hard practices in weather that would turn any man into an icicle, and tired ankles and sore bodies from some rough checking produced rough and tough cold weather men that should be very proud of what they accomplished against the seasoned, veteran hockey players they met. The MHS Hockey Team will surely be considered the threat it is when the winter season returns next year.

Following the team with their hearts and voices and giving all the support they could muster were the Hockey Cheerleaders. They created the spectators' spirit, which was so valuable to the players.

CHECKMATE,

the king must surrender and the game is won. Chess is a game for all ages and we have some blooming young masters at MHS who enjoy playing so much that they offer to compete for our school against other schools in tournaments. Chess requires imagination and the ability to think of most moves before playing them. Never has the USA won the World Chess Championships, but maybe with the enthusiasm shown by the members of the Chess Club, we might soon see a chess master whom we all know receiving that distinction of victory.

A PASS

to the library was only needed by upperclassmen during lunch periods. The Library Staff helped Mrs. Cassort stamp dates, check books in and out, catalogue cards, shelve books, arrange magazines and helped fellow students find information.

WITH A ROAR

the Pep Club started off this year with over thirty members, and they stuck to their job — in more ways than one. They rejuvenated the spirit among the entire student body. Those green hands, pants, tops, skirts, and jackets, from painting all those signs, don't go unnoticed.

DRIBBLE, DRIBBLE,

toil and trip-le . . . Blue jean shorts and old T-shirts were donned and out came the girls for bouncing practice. It was a hard year with two victories, but the Girls' Basketball team will begin next year with a lot of experience.

INTENSE INTEREST

is awakened in school affairs and activities as the sophomores start their second year. As freshmen, they were often brushed aside by upperclassmen, but now they realize that they have an active voice in the school. Some are elected as officers of organizations or become a contributing part in the school's sports program.

Two years have come and gone; the battle is half won.

FOR THOSE

boys and girls who enjoy the adverse condition of winter weather there are the Boys' and Girls' Ski Teams. Skiing is an exciting and fun sport but it requires a lot of hard work and perfecting of skiing techniques. This is where good coaching comes in. The Boys' Team was quite fortunate in that they had Mr. Naess and Mr. Phillips to coach them.

Second Row: Coach Phillips, Jim Huntsman, Scott Fitzsimmons, Dave Morse, Phil Cecchini, Dave Clemons.
First Row: Peter Hamilton, Jeff Mix, Steve Greaves, Brian Shea, Bruce Millar, Don Boucher, Coach Naess.

First Row: Bill Durkee, Peter Skilton, Seah Conlon, Eric Wilson, Terry Mitchell, David Coates, Glenn Moore, Mike Joslyn.

Under this duo the team took a fourth place in the state meet. Not to be outdone, the Girls' Team, under the guise of Miss Stowell, took an eighth place out of twenty teams at the girls' state meet.

FOR MANY YEARS,

the National Honor Society has done nothing but simply exist, and yet it remains as one of the most respected organizations in the school.

The Society does hold an annual meeting to elect the upcoming year's officers, but does one ever see its members selling paddlepops to raise money for — who knows — maybe a tour of MIT?

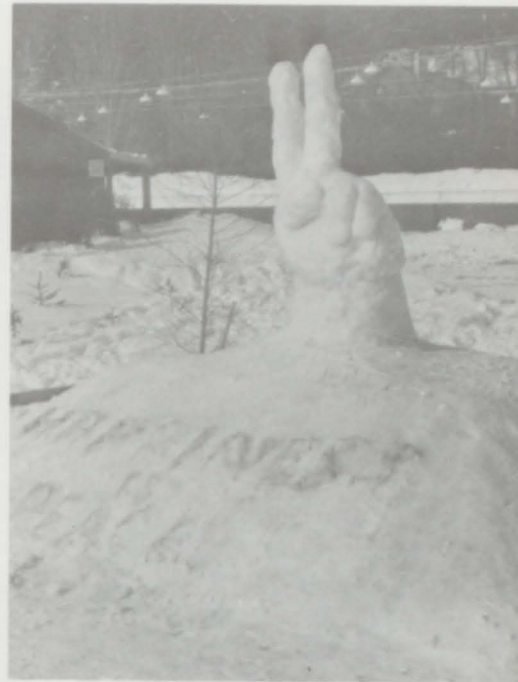

National Honor Society is a very hard club to get into but a surprisingly easy one to get out of. Membership is based upon scholastic achievement, leadership qualities, citizenship traits, and outside activities. The members are the top scholars of the school — the most respected students. The National Honor Society is a club which is not forced to *do* anything; its purpose is just what its name says. Membership is an honor, not a duty.

Standing: Mr. Palermo — Advisor, Peter Dale, Cindy Martin, Helen Sweet, Donna Marineau, Bill Schillhammer, Lise Boucher, Mary Caparco, Lynda Brewster. Seated: Anthony Segale, Debbie Lowe, Lea Sikora, Molly Coleman, Sheila Garback.

INCLEMENT WEATHER

and a shortened February vacation made the 1972 Winter Carnival a most difficult activity in which to participate. Uncommonly warm weather melted most of the snow which was essential to the Carnival. Then, just as pessimistic students began to complain about not having enough snow, old man winter dumped a foot of snow on Vermont. Both the indoor and outdoor events provided some exciting competition between the classes. The Seniors pulled through with a first place but the vacation was short-ended and the students felt that there was little time to relax and enjoy the Carnival.

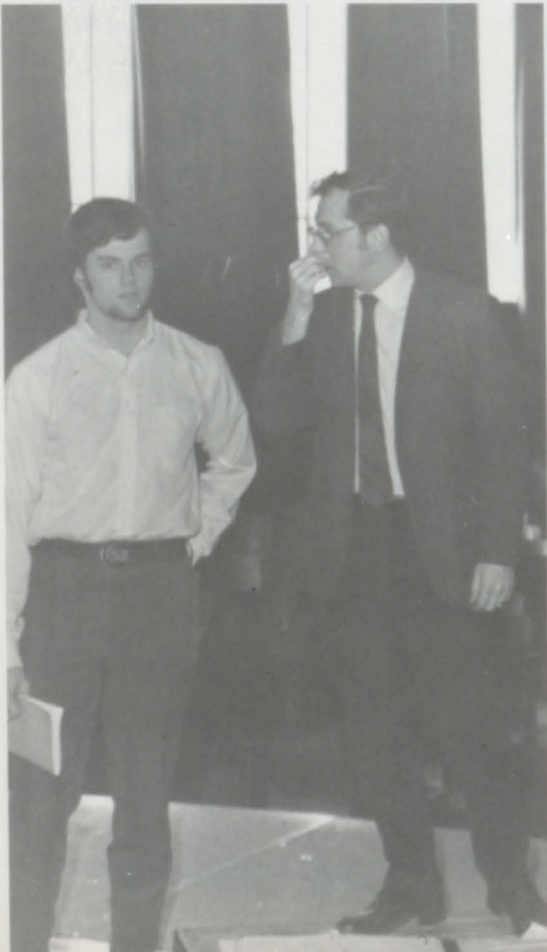

"ALL THE WORLD'S

a stage, and all the men and women merely players."

As the great dramatist William Shakespeare said of life, a play is a mirror image of the situations and coincidences of life. The Masque puts much time and effort into re-creating the realities of life for all to enjoy. Life is such an incomprehensible vast expanse, that to be able to step off the treadmill and look back into its mysteries may help each of us come away with a fuller understanding of our common destinies. Bravo! to all who make this examination possible.

the Alumni Game were two of the projects undertaken this year by the Varsity Club. When a green blazer is seen wandering around the halls, it is immediately evident that its wearer is a working and energetic member of the Varsity Club.

DA VINCI,

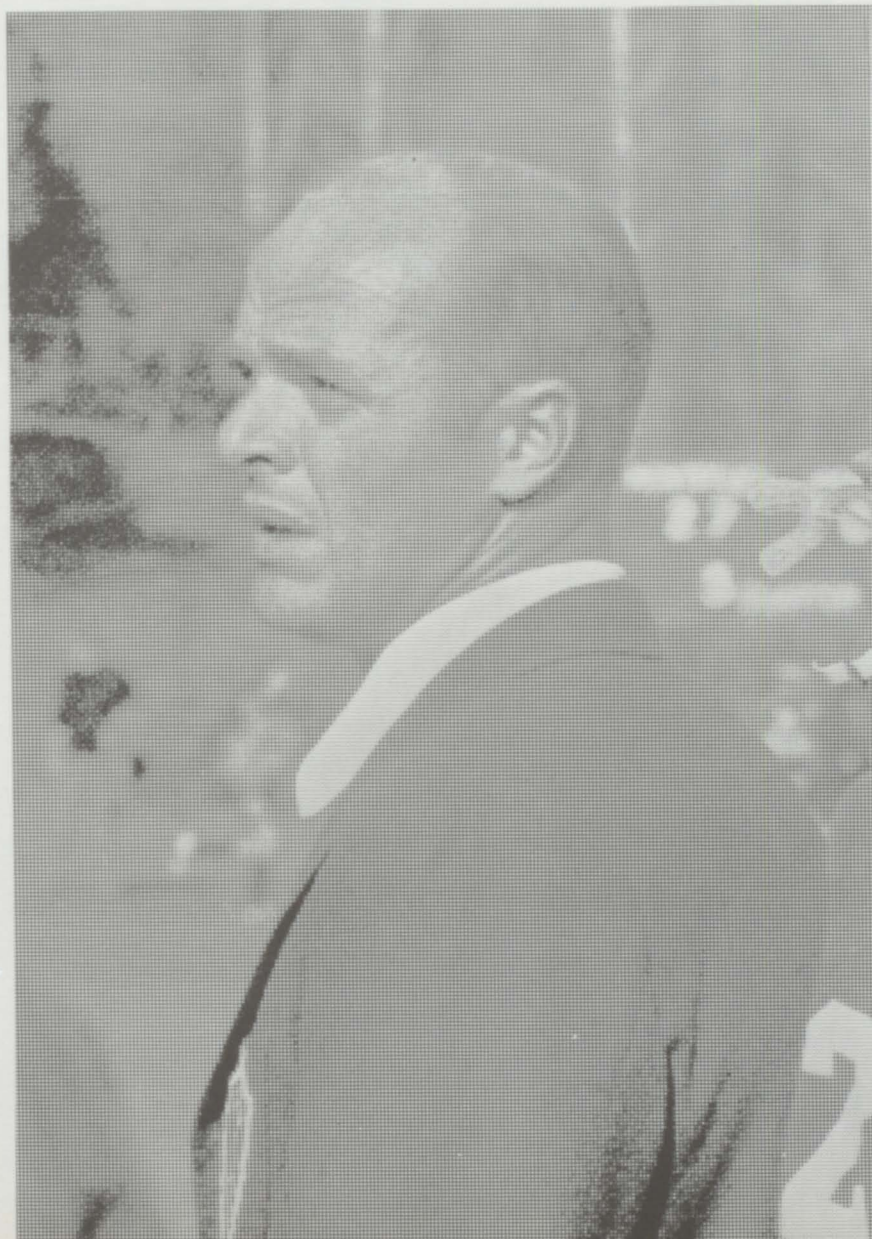

Picasso, and Rembrandt and other great artists are studied by art enthusiasts throughout the world. They are recognized as having put their entire souls into their works. The members of the MHS Art Club try to attain this same satisfaction through their works, criticisms, and appreciation of other artists' creations. The Art Club members' knowledge and understanding of great art grow through experimentation and discussion.

AN ANNUAL PICKLE

sale is not the main objective of the Spanish Club, even though this is the popular opinion of MHS students. Actually, the pickle sale is a method employed by the club's members to earn money for projects such as a Spanish Dinner. This leads us to the true purpose of the Spanish Club: to give those students studying Spanish an opportunity to learn more about Spain, her people, and their customs.

IT IS NECESSARY

to go beyond the scope of the classroom if one is to be able to speak a foreign language fluently or experience another country's culture. The French Club provides interested students a means by which they can apply what they have learned in French class. Members of the French Club travel to Canada where they are able to converse with the French-speaking citizens of Quebec communities. The French Club also holds an annual French Supper, and this year at Christmas, the club members went caroling throughout Montpelier, singing familiar carols in French. It is through projects like these that the French Club members make the learning of French a meaningful pursuit.

GEORGIA HAS PEACHES;

the Interstate Exchange learned this and more when they visited the southern state. The United States is so large that one may never be able to visit many parts of it. Interstate Exchange offers the opportunity to discover more about our country. But, is anyone going by way of Georgia? Can we hitch a ride?

THE GREAT ROMAN

Empire has left its influence on human civilization in countless ways. The world has long admired and copied Roman architecture, art, drama, literature, and government. But, perhaps the greatest single contribution the Romans gave the world was the Latin language, from which nearly all other languages are derived.

Members of the Latin Club investigate the history, culture, and politics of Rome in addition to studying the Latin language. By participating in their own Latin-oriented projects, the Latin Club makes this old civilization come back to life.

and there was light, supplied by the MHS Stage Crew, at least in Smilie Memorial Auditorium.

During the summer of 1970, the Stage Crew redesigned and reinstalled the entire lighting system in a new control booth above the stage. During the summer of 1971, they installed a new sound system including stereo playback of tapes and records. MYS now has what is considered to be one of the best systems in the state.

During the year, the Stage Crew was responsible for lighting two Masque plays, several Chorus and Band concerts, Vermont Philharmonic concerts and other productions. In addition, part of the equipment was carried to Bethany Church and Waterbury State Hospital to light other shows.

THE ROMAN SENATE

and other governing bodies even more ancient have had debate as their base. "Debate" is defined by Webster's as "a contention by words or arguments." The propositions made by each side represent many hours of planning, researching, learning and experimenting. The members of the MHS Debate Club, though young, are rapidly becoming adept in their field. Their devotion to the art of debate and to their club has gained them statewide recognition.

VIM, VIGOR AND VITALITY

are the words which best describe the Junior class. It is impossible to avoid them. They invade and involve themselves in every project in the school.

This is the peak year, the busiest year, and its culmination point is the Junior Prom.

At several times during the year, Juniors endure the startling realization — "Wow! Next year we will be Seniors!"

was the one thing that had to be learned by all working with copy sheets. The *Record* staff's year had its ups and downs just as did everyone else's. Encouragement came with financial news and receipts of accomplished deadlines. Occasional discouragement was inevitable when the photographer didn't show up and at poorly attended staff meetings. Many rushed layouts and write-ups were accentuated by a mad search for a cropping pencil in Quebec City, and first prize for the Homecoming float. At times no one thought it could possibly be done, but those who cared about it saw that it was done. Headlines, captions, copy, pictures, Techni-Croppers and layouts all had to be coordinated to create *Record* 1972.

IT HAS TAKEN FOUR

years of struggle. Some say the years have passed too quickly, but others will disagree, saying it's about time. Conflicts with teachers, battles with textbooks and homework assignments, and seemingly endless skirmishes with tests and term papers . . . but, we have survived to attain the coveted, so long elusive status of seniorhood. Now we realize that we will soon be leaving the ranks of the student body to make a life of our own. Has it been worth the occasional agony? Have the successes and great times outweighed the failures? We all ask this of ourselves — we all must know that we have not wasted four years. Undoubtedly we have grown. But, have we grown in ways that count? Have our personalities, our ideals begun to shape themselves? Is there something to us? We have to decide this within ourselves. Hopefully, we feel that MHS has done us some good. The greatest thing is to be able to say it has been worthwhile.

THE DANCE

The dance was held at the school gymnasium and was a great success. The students enjoyed the music and the dancing. The dance was a very enjoyable event and was a great success.

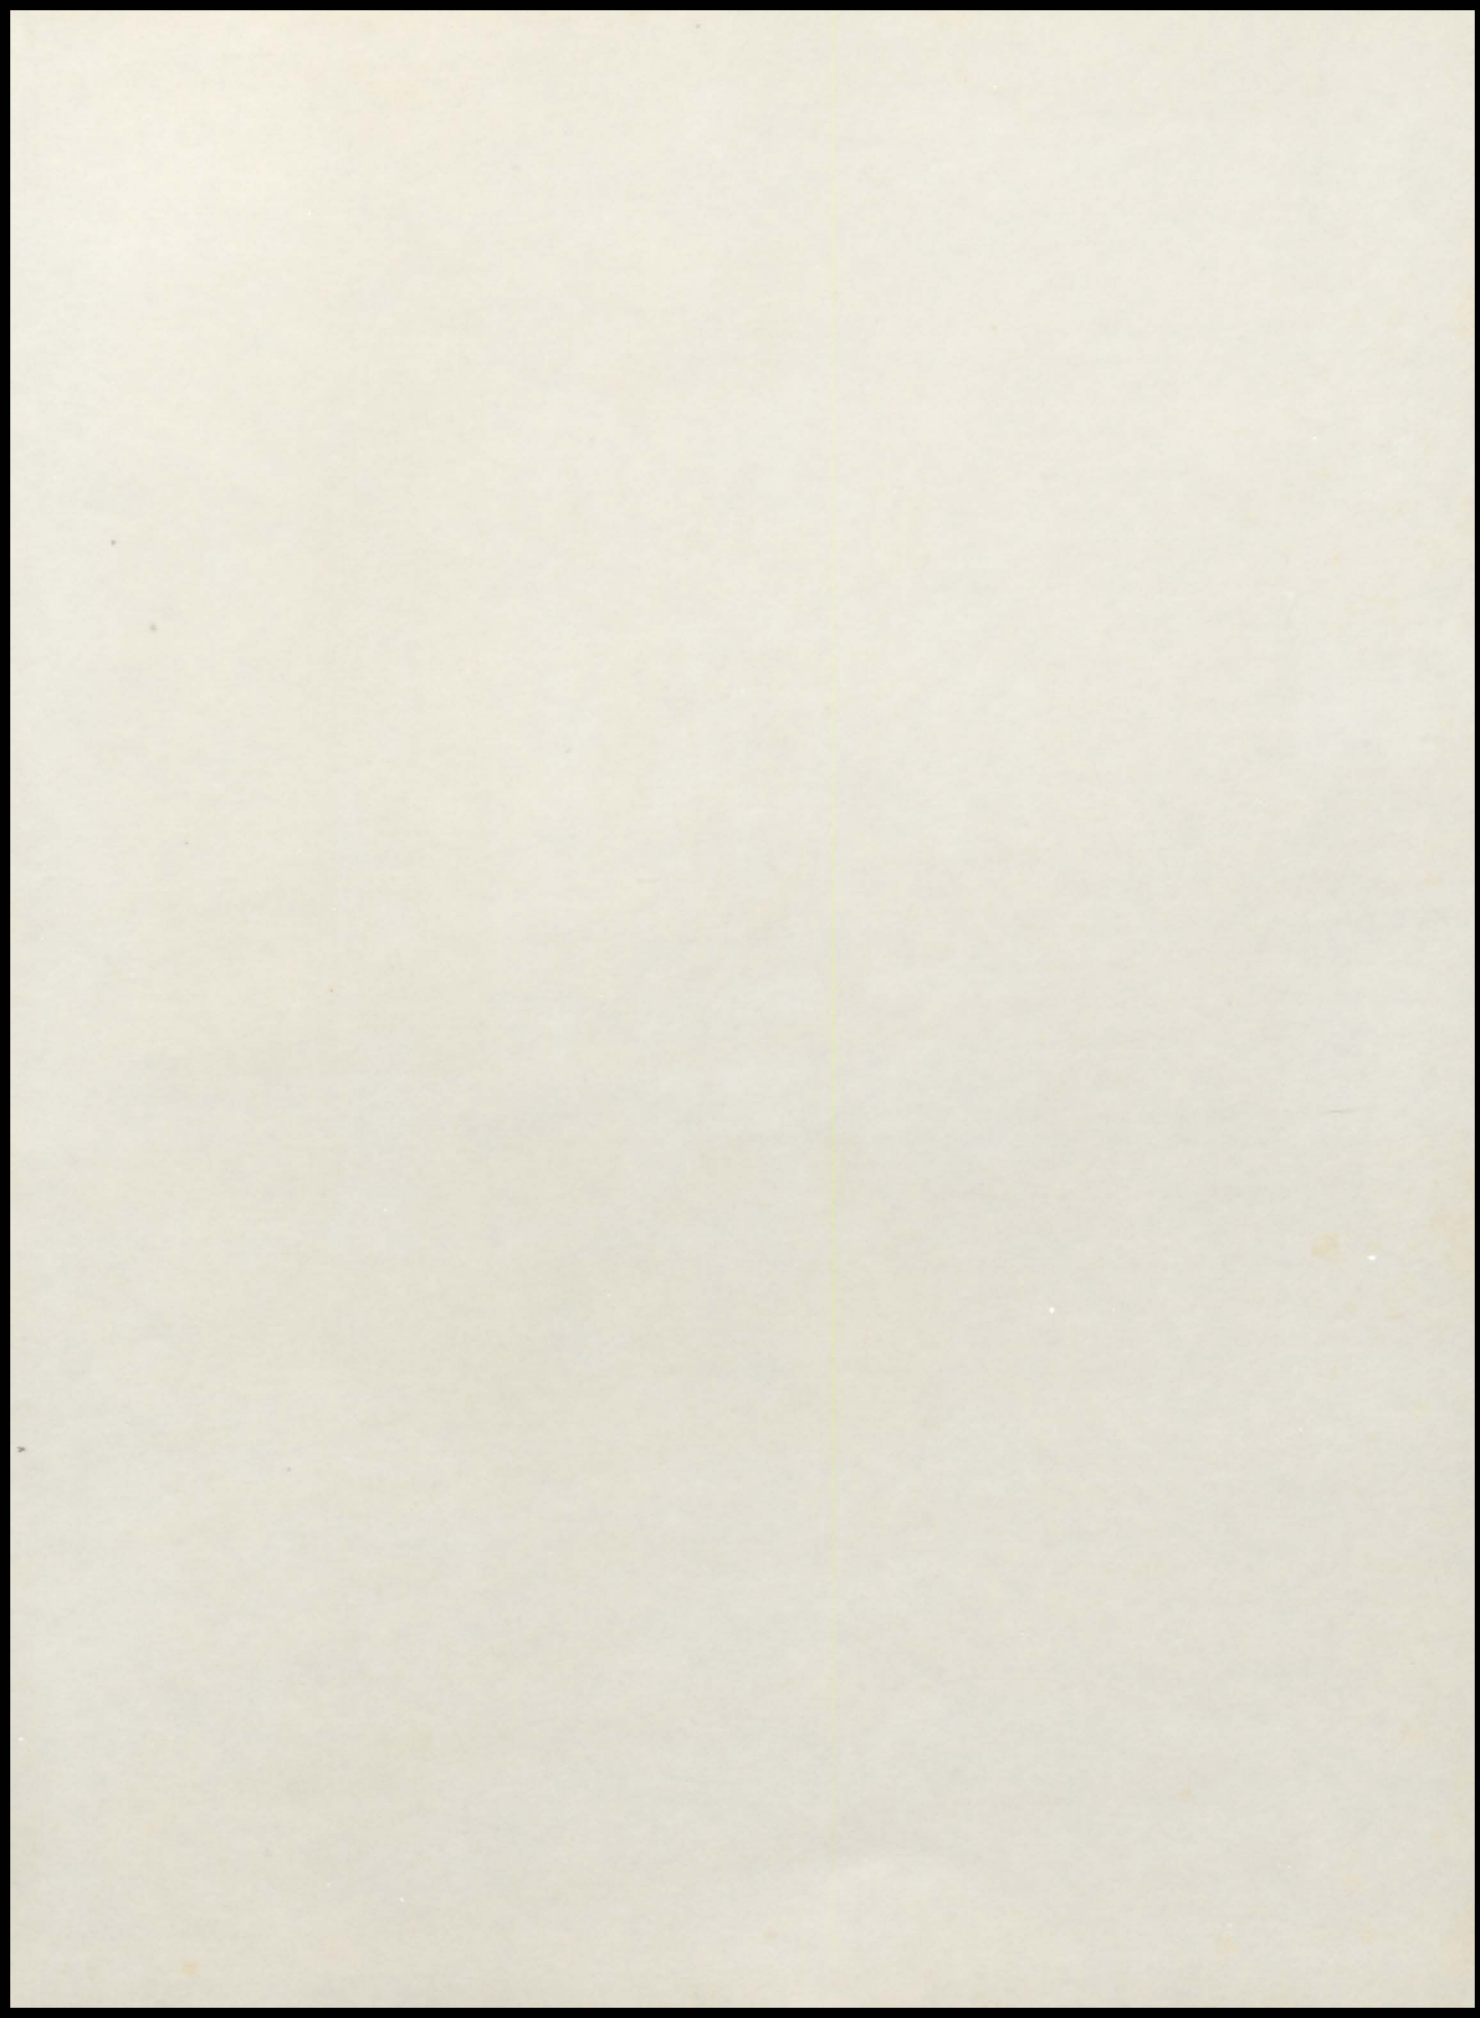

THE DIVERSE

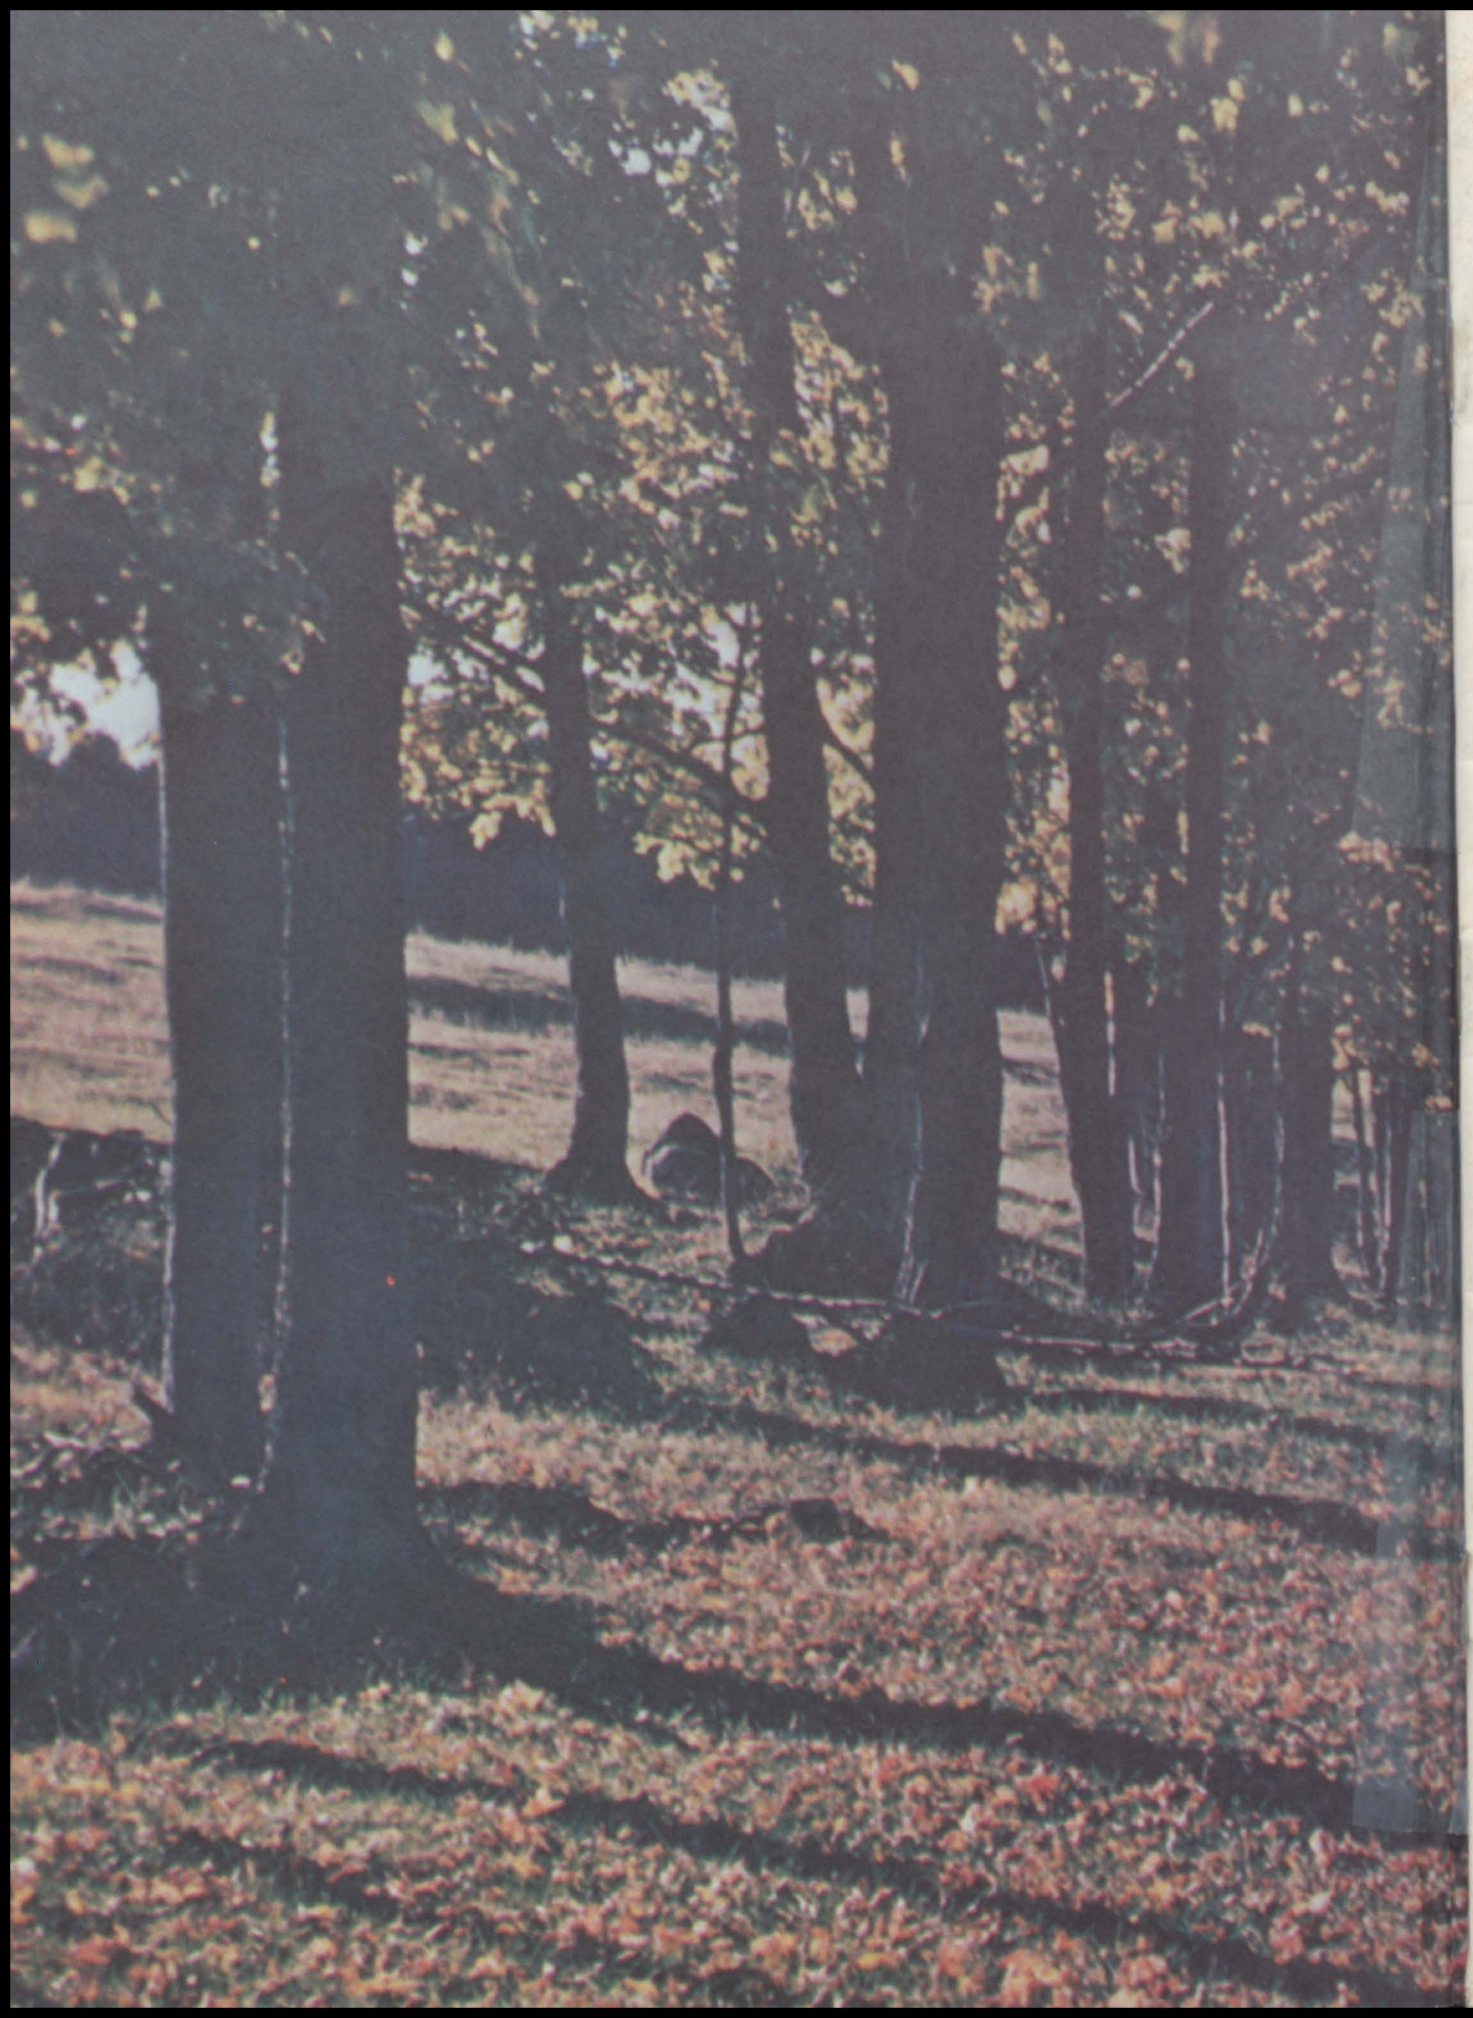

activities among the people at MHS as well as those around the world made this year interesting and exciting. At MHS, a policy of no study halls was adopted and generally worked very well, while President Nixon implemented his price-freeze idea to curb inflation. The death of Senator Winston Prouty shook the people of Vermont. Pittsburgh won the World Series and Dallas took the Super Bowl. The eighteen year majority age was put to its initial test in an election won by Robert Stafford and Richard Mallary. Also put to its test was U-32, which resulted in mixed emotions. Mr. Paul Winters, former teacher at MHS, died of cancer. The prison riots at Attica, New York broke out amid the Bangla Desh problems in Pakistan. School busing was violently controversial in the south while the Parenti situation caused conflict at UVM. Locally, Mayor Strong announced that he would resign after several years as Mayor, and hockey came into its own at MHS. All were surprised when two girls applied to Annapolis, at the time "American Pie" by Don McClean was for so long at the top of the charts. The 1972 Cochran won an Olympic gold medal for the United States. President Nixon made his historic trip to China, and Angela Davis was freed from prison. Joseph Kennedy III's plane was hijacked and the movie "The French Connection" was a smash hit. These and many other things made the year what it was; *people* were behind these things. We can take pride in Montpelier High School this year — we made it happen.
